TURNKEY MALARIA PREVENTION PROGRAMS

We can help by distributing effective and inexpensive prevention solutions that are also environmentally friendly. We offer turnkey malaria prevention programs developed for Africa, with direct access to populations, children and mothers, exemplary, useful and visible action, a sustainable and scalable development operation, partnerships with public health authorities, private companies and NGOs.

NO MERCY FOR MALARIA - #NMFM

Many African ministries and NGOs have already endorsed their support to the international community to use this innovative technology to fight malaria, the leading cause of death in the world. We offer a malaria prevention and control program: #NMFM / NO MERCY FOR MALARIA.

Mrs Julia Merhej and Mr Steven Seagal have already accepted to be the exclusive Ambassadors to the Foundations who wish to fight against malaria.

#NMF
NO MERCY FOR MALARIA!

Mrs. Julia Merhej and Mr. Steven Seagal will be the exclusive Ambassadors to the Foundations who wish to fight against malaria. Julia Merhej, Vice President of OMECA, a personality well known internationally for her cultural and associative patronage and the famous actor Steven Seagal, now Advisor to the Minister of Foreign Affairs of Russia, have taken to heart this humanitarian mission to fight malaria, a worldwide scourge.

PREVENTION AND EDUCATION

Our program is part of the preventive approach of major international programs.

NO MERCY FOR MALARIA offers its partners:

- Turnkey malaria prevention programs developed for Africa,
- direct access to populations, children and mothers,
- an exemplary, useful, and visible action,
- a sustainable, easily modular and evolving development operation,
- partnerships with public health authorities, private companies and NGOs.
